

Abhiram Korothe

DevSecOps | SRE | Cloud | Platform Engineering

7994822811 | abhiram1289@gmail.com | [linkedin.com/in/abhiram-korothe](https://www.linkedin.com/in/abhiram-korothe)

PROFESSIONAL SUMMARY

DevSecOps/SRE Engineer with 9.5+ years of experience delivering and supporting critical services across the application lifecycle. Strong background in AWS, CI/CD, Infrastructure as Code, Kubernetes, Configuration Management, Observability, production troubleshooting, and root-cause analysis. Experienced in designing and implementing technical systems and in applying AI-driven automation to repetitive engineering processes.

CORE SKILLS

Continuous Integration and Continuous Delivery (CI/CD) | Infrastructure as Code (IaC) | Container Orchestration | Solution Architecture | Configuration Management | AWS / Cloud Engineering | Kubernetes / Docker | Observability & Monitoring | DevSecOps & Security Tooling | Production Troubleshooting & Incident Management |

SELECTED EXPERIENCE

- DevOps / SRE professional experienced in supporting the complete application lifecycle across Development, Staging, and Production, including Build, Release, Deployment, Configuration, and Operations.
- Proficient in **AWS** Cloud, with hands-on experience across Compute, Networking, Storage, Databases, IAM, Security, and highly available infrastructure.
- Experienced in designing and provisioning scalable Infrastructure as Code (IaC) using **Terraform**, with a focus on repeatability, automation, and operational consistency.
- Strong experience building and managing CI/CD pipelines using **Jenkins** and **GitLab** CI/CD, automating application builds, artifact generation, testing, and deployments.
- Extensive experience with **Docker** and **Kubernetes**, including containerization, Docker image management, Kubernetes cluster operations, deployments, troubleshooting, and production workloads.
- Skilled in Configuration Management and Deployment Automation using **Ansible**, along with scripting in **Python** and **Bash** to automate repetitive operational tasks.
- Hands-on experience with **GitHub**, **GitLab**, and **Bitbucket**, along with artifact and container repositories including **Nexus**, **JFrog**, and Amazon **ECR**.
- Experienced in Production and Non-Production troubleshooting, resolving deployment failures, application issues, infrastructure problems, and implementing patches for bug fixes, feature releases, and version upgrades.
- Strong background in Observability and Monitoring, using tools such as **Datadog**, **Grafana**, **ELK**, **Splunk**, and **New Relic** to monitor infrastructure and applications, investigate incidents, and improve system reliability.
- Familiar with integrating security and code-quality practices into development and deployment workflows using **SonarQube**, **Snyk**, **Wiz**, and **Tenable**.
- Experienced in Incident, Change, Problem, and Major Incident Management, including participation in critical production incidents, troubleshooting, root-cause analysis, and cross-team coordination

PROFESSIONAL EXPERIENCE

Company / Role	Location	Dates
Modulr — Platform Engineer	Mumbai	Feb 2025 – Present
Blenheim Chalcot — Specialist Platforms	Mumbai	Oct 2024 – Jan 2025
Pearson — Site Reliability Engineer	Bengaluru	Jul 2023 – Sep 2024
Trellix — Cloud DevOps Engineer	Bengaluru	Jun 2021 – Jun 2023
Cognizant — Tech Lead	Bengaluru	March 2017 – May 2021

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- HashiCorp Certified: Terraform Associate
- IELTS – International English Language Testing System

HONORS & AWARDS

Cognizant Cheers | Trellix Hackathon Runner Up | Modulr Way Awards

EDUCATION

Master of Engineering (MEng), Embedded System Technology — Anna University | Aug 2014 – Jun 2016
